## GENERAL INFORMATION

### ESTABLISHMENT.

In the organization of the state school system there was a strong feeling that there should be in this state a school exclusively for girls, and by an act of the first legislature the Industrial Institute and College was established. By a special act of the legislature, 1916, the name of the institute was changed to the Oklahoma College for Women. The institution is under the control of the State Board of Education.

Senate Bill No. 249 provided for its location and government in the following manner:

That an Institute and College should be located for female students in the State of Oklahoma, to be located in the same manner as other state institutions; that the purpose of said college should be to give instruction in the English language and the various branches of mathematical, physical, natural and economical sciences, and the technical arts; and that there should be established a sufficient faculty for the teaching of these branches and such arts and sciences as are related thereto; which professorships shall be filled by able and efficient persons, aided by such assistants and instructors as shall from time to time be necessary.

### AIM.

The purpose of this institution is to provide for the moral and intellectual advancement of the girls of Oklahoma. No young woman can have a more noble ambition than to become the mistress of a happy home, and this institution has for its prime object the training of the young ladies along these lines that will make them more efficient homemakers. The course is projected along practical lines and when completed any young woman should be able to provide for herself if necessary.

### LOCATION AND SITE.

The Oklahoma College for Women is located at Chickasha, Grady county, Oklahoma. Chickasha, Oklahoma, the Queen of the Washita, commands one of the richest valleys in the state, and through the Rock Island, Frisco, and Santa Fe railroads, with their seven diverging lines, is easy of access from any point in the state. The city had a population of 10,330 in the U. S.

census of 1910. It has a well organized system of public schools, and churches representing twelve denominations. Its altitude varies from 1,184 to 1,168 feet.

The college campus, comprising 20 acres, is situated on the highest eminence overlooking the city of Chickasha from the southwest. The administration building is approached by a broad, semi-circular driveway and an eight-foot cement walk. The campus to the southwest of the administration building is used as an athletic field, being laid off into fields for basketball and tennis courts. The city electric railway passes to the west of the campus, making the college easily accessible to the business part of the city.

### ADMINISTRATION BUILDING.

This building was ready for occupancy September, 1911. The entire building covers a floor space of 220 by 142 feet and is three stories high. The exterior is of cream pressed brick with gray stone trimmings. This building is fireproof throughout. It contains, besides the offices of administration, a large auditorium with seating capacity of 1,200; a library of 5,000 volumes; a large gymnasium, equipped with modern appliances and provided with shower baths, and large, airy, well-lighted class rooms; cost \$100,000.00.

### NELLIE SPARKS HALL.

A handsome three-story, fireproof, \$100,000.00 dormitory has been constructed for the housing of boarding students. It is equipped with all modern conveniences, such as steam heat, electric lights, baths, parlors, and is the equal, if not the superior of any college dormitory in the state. An experienced matron is in charge of the young ladies.

The culinary department is in charge of an experienced matron, and the very best comforts that the rate of board will allow will be furnished. Table etiquette and diningroom decorum is maintained upon the highest plane, and everything is done to elevate and ennable the lives of the students that knowledge, experience and a refined and Christian influence can give.

There is an addition being added to Nellie Sparks Hall at this time, and when completed the building will accommodate 220 young women.

### CENTRAL HEATING PLANT.

This plant is now under construction and is being built large enough to provide heat sufficient for a college plant twice the present size.

### RELIGIOUS INFLUENCES.

To train young womanhood as it should be trained means raising the standard of home and increasing our ideals of citizenship. To take a girl and mold her life into a pure, cultured Christian character is the greatest work of man, and this is the function of the Oklahoma College for Women. The religious atmosphere is good. Chapel service is held each morning. We have a strong Y. W. C. A. under the direction of a general secretary and each girl is required to attend Sunday school and church of her choice.

### EXPENSES.

The following table gives a conservative estimate of essential expenses during the year:

|   |                |
|---|----------------|
| Room and board, payable monthly in advance, approximately ..... | \$18 per month |
| First month's room and board .....                              | \$23.00        |

Free transportation on the street car to and from church each Sunday morning is given to each girl in the boarding department during the first semester, and a ticket given to each girl that will entitle her to admission to all lyceum courses during the entire year. Each student not in the boarding department will be charged a fee of \$3 on registration for lyceum ticket and other student activities.

|  |         |
|--|---------|
| Laundry, approximately, per year.....              | \$25.00 |
| Books and stationery, approximately, per year..... | 15.00   |

A fee of \$3.00 per semester is charged in all home economic courses, and must be paid in advance.

A monthly fee of \$1.00 is charged those who use the college pianos for practice purposes. All students are required to practice two hours per day in order to receive credit.

A fee of \$1.50 per semester is charged those who use the college typewriters for practice purposes.

A library fee of \$1.00 will be charged every student.

No deduction in board will be made for absence of less than two weeks, and then only when absence is necessary. The board must be paid monthly in advance. No deduction made for Christmas vacation.

The service and comforts of the Nellie Sparks Hall are first-class. Because of the uncertain conditions of the market of all food supplies, the State Board of Education reserves the right to increase the board at any time circumstances demand.

Tuition is free. According to Section 12 of the law by which the college was established, all white female citizens of Oklahoma, between the ages of twelve and thirty-five, who are known to possess a good moral character, may be admitted to all the privileges of the institution.

Students who do not live in Oklahoma will be charged the tuition fee of \$20 per year. The same rate is charged for each special.

One dollar will be added to each fee that is not paid during the two weeks after the beginning of each semester.

## LAW GOVERNING DORMITORY ADMISSION

---

### SENATE BILL No. 205.

*Be it enacted by the people of the State of Oklahoma.*

SECTION 1. The privilege of rooming in the dormitories now or hereafter located at and constituting part of any educational institution in this state where such dormitories are intended for girls shall belong to the due quota of girls from each county of the state in preference to all others; Provided, that this provision shall not apply as to deny the privilege of the dormitory to girls now enrolled in the institution, occupying dormitory room. The basis of apportionment is hereby fixed at the dormitory capacity existing at the time of such apportionment.

SEC. 2. The right is hereby declared to belong to each county to have a number of girls admitted to such dormitory for girls proportionate to its number of girls, as compared with the whole number in the state, and the total occupants of such dormitory or dormitories at any session shall not exceed the entire allotment for the several counties for such purposes, for such session.

SEC. 3. The apportionment shall be made and announced by the president of the institution annually by the first of June, or as soon thereafter as practicable, but no applicant under fifteen years of age shall be admitted to such dormitory or dormitories. Provided, that in making such apportionment, preference shall be given to girls who are applicants for such dormitory privileges residing in school districts having no high school facilities; and provided, further, in the event any county shall fail to make reservation for its quota of girls by August 1st of any year, the president of the institution may accept applicants from any other county in the state to fill such quota.

Passed by the Senate February 22, 1917.

M. E. Trapp, President of the Senate.

Passed by the House of Representatives March 16, 1917.

Paul Nesbitt, Speaker of the House of Representatives.

Approved this 26th day of March, 1917.

R. L. Williams, Governor of the State of Oklahoma.

## HOMES FOR YOUNG LADIES.

There are always a few homes desiring young ladies to assist in light housework, or for the sake of their presence, and students of insufficient means are recommended to these homes. Where service is required it is understood that three hours a day constitute the limit.

## GENERAL REGULATIONS.

1. No student will be enrolled who can not furnish evidence of good moral character. Our school is not a reformatory. The discipline will be kind, but firm, and every student is expected to conform loyally to rules and regulations. Every effort will be made to make the home life of the girls attractive and inviting, and all wholesome liberties will be allowed. On the other hand, our students are expected to conform to law and order, and above all, to requirements governing their conduct with reference to social questions. It is the purpose of the state by means of this institution to enlarge and ennoble the home life of its women and those coming to us may look well to these principles.
2. Permission to see friends, for leaves of absence, or visiting must be made to the president, *by the parents*, and not through the medium of the pupil.
3. Every precaution is taken to ward against unnecessary expense on the part of all students. The test of a student's standing in the college is not the amount of money she has; not the amount she spends. The spirit of the student body is for simplicity and economy.
4. Parents are earnestly requested to send money to their daughters through the college, making checks payable to the president. Money sent this way is placed to the credit of the student for whom it is sent and may be drawn by her. Each parent must state in writing the amount of money the daughter is allowed to draw per week.
5. Each girl is required to attend church and Sunday school of her own choice on Sunday morning.
6. Young ladies of the preparatory department will be permitted to entertain their young gentlemen friends twice per month and this must be done in the parlors of the dormitory,

and then only when a written permission is given direct to the president from the parent or guardian. College students may have company more often under same restrictions.

7. A student entering the college for the first time must have filled out and returned to the Committee on Admission, credit blank, which will be furnished by the secretary on request. These credits must be mailed direct to the president from the principal or superintendent within one month after enrollment. After matriculation in the course chosen, the applicant will arrange her program with the Committee on Schedule.

8. Registration is required on the appointed days at the beginning of each term. No student will be admitted as a candidate for a degree, diploma or certificate after October fifteenth of the graduation year. The Senior year a minimum of 30 hours work must be taken in residence. Students expecting credit can not enter for a regular course later than November first of the school year in which they expect credit, unless they present credentials assuring the Committee on Admission of their ability to pursue work in which they classified.

9. No college students will be permitted to carry more than eighteen or less than twelve hours per week except by permission of the president. No preparatory student will be permitted to carry more than five and one-fourth units or less than three units except by permission of the president.

10. When a student's course of study has been scheduled she may not change her course, except by permission of the Classification Committee. All courses must be adjusted within three weeks after the date of registration. If for any reason a student's course must be readjusted after this date a fine of one dollar will be charged.

11. Our system of grading is as follows:

A is 95; A+ 95 to 100; A- 90 to 95.  
B is 85; B+ 85 to 90; B- 80 to 85.  
C is 75; C+ 75 to 80; C- 70 to 75.  
D is 65; D+ 65 to 70; D- 65 to 0.

12. There are two written examinations, one at the end of each semester. Students are required to attend the examinations of their classes unless their average class standing is at least A-. A student falling below D loses her right to advance to

higher course. A student who receives a grade of D or D<sup>+</sup> is considered conditioned, and is given a second examination. Conditions must be removed before the next semester.

13. When a student wishes to withdraw from college she must see the Classification Committee in order to get a withdrawal card. Unless this form be complied with no credit will be given for any work done during the semester in which she withdraws.

14. No student must absent herself from any exercise of the college without good reason and a written excuse for any absence must be presented to President before re-entering classes.

15. Students leaving at the end of the year before the day scheduled for the close of college activities, without excuse from the President, thereby forfeit credit for all work done during the second semester.

16. Should any girl leave the dormitory at the close of school for the Christmas vacation without filing a written request for her room after Christmas, she will lose her place and the room will be assigned to another.

17. All girls who desire to retain their rooms for the session 1919-1920 must make written application for same before the first day of May, 1919, and this application must be accompanied with a deposit of \$5.00, which amount will be deducted from their first month's board in September, 1919.

18. All girls rooming in the dormitory are required to furnish their own bed linen, cover, towels and a small rug 27 inches by 54 inches.

## DRESS REGULATION

---

All students, without exception, are required to conform to the dress regulation which consists of a navy blue wool coat suit and a white or navy blue waist. Plain block sailors must be worn and a limited range of choice will be allowed in the selection in the hat, and it must be trimmed in black only. If a heavy top coat is needed, it should be navy blue.

White waists and skirts or simple white dresses may be worn when the season permits. White shoes and stockings may be worn with the white suits.

For school, students must wear navy blue wool skirts with either plain white waists or middies. The middies must have either white or navy blue collars and cuffs. Only blue ties may be worn. Navy blue dresses may be worn to school during the winter months, also blue wool middies.

Plain black hose of sensible weight and shoes in standard style in black leather shall be worn with the blue suit. No fancy colors or novelty styles will be permitted.

For parties and social events students need not conform to the dress regulations. This does not include public entertainments, such as lyceum lectures, etc.

On Saturday and for dinner in the evening, uniform dress regulations do not apply in the boarding hall.

All students whose homes are in Chickasha, must wear the uniform to and from college and on the college campus.

All students are required to wear the uniform when traveling to and from college.

In addition to the uniform, every girl will be expected to provide herself with the following articles before leaving home:

One pair of rubbers, one rain coat, one umbrella.

It is advisable to have the waists, blue wool skirts for school wear and white skirts made before leaving home.

No coat or sweater other than navy blue will be allowed for any purpose.

The Gymnasium Costume must consist of: Blue gymnasium suit, that must be purchased through the college, black gymnasium shoes and black hose.

## STUDENT ORGANIZATIONS

---

### STUDENT GOVERNMENT

The Oklahoma College for Women, believing that sound judgment, self-control, a discernment of right and wrong, and the ability to deal with people, has given to the students a large part of the responsibility of student activities, thus making the character of the student expected, consonant with the government of the college. Every student enrolled in the college is "ipso facto" a member of the student organization which cooperates through its governing board with the college authorities in obtaining the best administration of student affairs and in upholding the highest ideals of the college.

### STUDENTS COUNCIL

The governing body of Student Government is the Student Council, composed of thirty girls representing each class in the college. The Council holds before it the purpose of the organization and regulates the conduct of students, to promote self-control, college loyalty and a spirit of unity among all the students; and in every way to preserve student honor.

### YOUNG WOMEN'S CHRISTIAN ASSOCIATION

The Young Women's Christian Association is a voluntary organization which has for its purpose the establishment of an ideal student community. It deals with the problems of physical environment, ethical culture, and the individual life problems of the students. It seeks to develop and foster sincere consistent Christ-like characters. It is the chief organization in the college for promoting a true and beautiful college fellowship among all the students of the school. This organization is under the direction of a general secretary.

### OGIRITA AND ITHANUA SOCIETIES

All college students are required to be members of one of these societies.

### LEAMAN AND UTOPIA SOCIETIES

All Preparatory students are required to become members of one of these societies.

### ATHLETIC ASSOCIATION

The purpose of this association is to provide the students with interesting and helpful recreation and opportunities for controlled athletic practice.

Athletics, which consist of basketball, volley ball, baseball and tennis are under the jurisdiction of this organization which in turn is controlled by the faculty committee on athletics. Every student is urged to become a member. A moonlight tramp is held in the fall, a big entertainment at mid-year and a tennis tournament in the spring at which each class in the college and preparatory school are represented. The winner's name and class are engraved on the large loving cup retained at the college from year to year.

### MUSIC CLUB

The College Music Club was organized at the opening of the session 1909, and federated with the State Federation of Women's Clubs the following November. It presents regular monthly programs and does much to foster an appreciation of good music among the young women of the college.

### ARTIS SODOLITAS

This Club is composed of major art students and was organized to further the interests of students in the knowledge of and appreciation for artists and their paintings.

### SCIENCE CLUB

The Science Club was organized in 1917, to stimulate interest in science.

### GLEE CLUB

The Glee Club is an organization made up of advanced students of Voice. The study of glees, choruses, etc., is pursued during the year under the direction of the Head of the Voice department. A concert is given each spring.

### DRAMATIC ART CLUB

The Dramatic Art Club was organized for the purpose of furthering interest in Modern Drama, and during the season

of 1916-1917 started the "Little Theater" movement presenting a series of matinees of one-act plays.

### STUDENT PUBLICATIONS

The Junior Class, publishes *The Argus*, the College Annual each year.

### SCHOLARSHIPS, LOAN FUND AND PRIZES

Different organizations in Oklahoma are now maintaining scholarships in the College for Women. The purpose of these scholarships is to aid meritorious students. The fact considered in making an assignment of a scholarship are the needs of a student and her capacity as shown by her work. Scholarships are usually awarded by committees of the organizations maintaining them. Application should be made to the name indicated in each instance.

Expression, Piano and Voice will not be accepted unless the work has been done in this institution, or in one of equal standing.

### ADMISSION OF CONDITIONED STUDENTS

While fifteen (15) units of work are required for full admission to Freshman standing, applicants will be admitted to partial standing for one year only on the presentation of thirteen (13) units. Such students are considered as conditioned and must remove conditions by examination during the Freshman year. The first obligation of the student is to remove all conditions. No student may matriculate for a second year whose entrance units are in any way incomplete.

### ADVANCED STANDING

Applicants for advanced standing must mail a full authenticate statement of high school subjects and college studies for which advanced credit is desired. These credits must be mailed

direct from Principal or Superintendent to the President. Such students will be admitted to those classes for which their previous training qualifies them. If at any time the student shows inability to do the work of any class to which she has been admitted, she is assigned to a lower class.

### DESCRIPTION OF ADMISSION UNITS TO THE COLLEGE ACADEMIC

The following description of admission units has been adopted from reports of the Carnegie Foundation and of the College Entrance Examination Board:

#### ENGLISH—Three or Four Units

This comprises instruction in grammar and composition. English grammar should be reviewed in the secondary school; correct spelling and grammatical accuracy should be exacted in connection with all written work during the four years. The principles of English composition governing punctuation, the use of words, paragraphs, and different types of composition should be mastered; practice in composition, oral and written, should extend throughout the four years of the secondary school. Written exercises should comprise narration, description, exposition, and argument. Let the personal experience of the student be the primary source of the subject in written discourse. For other subjects let the student use general knowledge, and studies other than English as well as from her reading in literature.

#### *Literature—*

Ability to read with accuracy, intelligence and appreciation, is sought by means of two lists of books, headed, *Reading* and *Study*. In connection with both lists, the student should be trained in reading aloud, and required to commit to memory some of the more notable passages in verse and in prose. As an aid to literary appreciation, she is advised to acquaint herself with the most important facts in the lives of authors, whose works she reads, with their place in literary history.

### REQUIREMENTS FOR 1918-1919

#### A.—*Reading*

The purpose of this course is to foster in the students the habit of intelligent reading and to develop a taste for good

literature. The books should be read carefully, and attention given to the main purpose and charm of the author.

The books provided for reading are arranged in the following groups from each of which two books are to be selected, except as otherwise provided under Group I:

#### GROUP I.—CLASSICS IN TRANSLATION

The Old Testament, comprising narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings, Daniel and the books of Ruth and Esther.

Homer—Odyssey, with the omission, if desired, of Books I, II, III, IV, V, XVI, XVII.

Homer—Iliad, with the omission, if desired, of Books XI, XIII, XIV, XVII, XXI.

Vergil, Aeneid. The Odyssey, Iliad, and Aeneid should be read in English translations of recognized literary excellence.

(For any unit of Group I, a unit from any other group may be selected).

#### GROUP II.—SHAKESPEARE

**G. Civics—One-half Unit.**

Credit will be given for such knowledge of this subject as is indicated by any standard text. The student should be accustomed to work by topics.

**LATIN.****A. Grammar, Composition and Reading—One Unit.**

Inflections, rules for composition and derivation of words, syntax, sentence structure, translations from Latin to English, and from English to Latin.

**B. Caesar—One Unit.**

Any four books of the Gallic war, preferably the first four. Prose composition and slight translation.

**C. Cicero—One Unit.**

Any six orations, preferably the following: The four orations against Catiline, Archias, and the Manilian Law. Prose composition and slight translation.

**D. Vergil—One Unit.**

The first six books of the Aeneid, versification in general and dactylic hexameter. Prose composition and slight translation.

**GERMAN.****A. Grammar, Composition and Reading—One Unit.**

Drill in pronunciation, rudiments of grammar, memorizing and frequent repetition of easy colloquial sentences, abundant easy exercises designed not only to fix in mind the principles of grammar, but also to cultivate readiness in the reproduction of the natural forms of expression, the reading of seventy-five to one hundred pages of easy text, translating into German easy sentences selected from reading lessons.

**B. Grammar, Composition and Reading—One Unit.**

Review in grammar, practice in pronunciation, dictation, memorizing, prose composition, translation at sight of easy prose and poetry, reading of one hundred fifty to two hundred pages of literature.

**FRENCH.****A. Grammar and Composition—One Unit.**

Drill in pronunciation, rudiments of grammar, memorizing and frequent repetition drill of easy colloquial sentences, abun-

dant easy exercises designed not only to fix in mind the principles of grammar but also to cultivate readiness in the reproduction of the natural forms of expression, the reading of one hundred fifty to one hundred seventy-five pages of easy text, translating easy sentences into French.

**B. Grammar, Composition and Reading—One Unit.**

Review in grammar, practice in pronunciation, dictation, memorizing, prose composition, translation at sight of easy prose and poetry, reading of two hundred fifty to four hundred pages of literature.

### SPANISH.

**A. Grammar and Composition—One Unit.**

Elementary grammar; drill in pronunciation and elements of language. Oral and written exercises from Spanish to English and from English to Spanish. Memorizing and dictation. The reading of one hundred twenty-five pages of easy Spanish and LeSage's *Gil Blas* (translation of Padre Isla).

**B. Grammar, Composition and Reading—One Unit.**

Grammar of the Spanish Academy. Advanced oral and written composition, grammar and conversation. Reading from representative texts.

### MATHEMATICS.

**A. Algebra—One and one-half Units.**

1. To Quadratics—One Unit.

Special attention should be given to factoring, the solution of equations (numeral and literal), the algebraic statement of problems, theory of exponents, and the simplification of radicals.

2. Quadratics, Binomial theorem and Progressions—One-half Unit.

A review of (1) ratio, proportion, theory of exponents, binomial theorem, progressions and logarithms.

**B. Plane Geometry—One Unit.**

The usual theorems and constructions of good textbooks, including the general properties of plane rectilinear figures; the circle and the measurements of angles; similar polygons; areas; regular polygons and the measurement of the circle. Application to the mensuration of lines and plane surfaces.

## SCIENCE.

A. *Physics*—One Unit.

Work in this should be conducted upon the plan of combined laboratory, lecture demonstration and class periods. The laboratory work should consist of at least twenty experiments in sound and mechanics, and twenty in heat, light and electricity. Candidates must submit laboratory notebooks properly certified. These should contain a brief account, in the pupil's own language, of the work, step by step, as she actually did it.

B. *Chemistry*—One Unit.

Preparation in chemistry should include a separate manual of laboratory directions containing as little as possible besides working suggestions. At least forty experiments from a group of sixty or more should be made. Three periods a week should be devoted to lecture and recitation work, and, in addition to this, at least two double laboratory periods a week must be spent by students in actual laboratory work. The candidate must submit a laboratory notebook properly certified.

C. *Botany*—One half or One Unit.

A knowledge of anatomy and morphology, physiology, ecology, the natural history of the plant, groups, and classifications is required. At least half of the time should be devoted to individual laboratory work, and the remainder to recitations and discussions. Accurate drawings with careful notes and clear descriptions and an herbarium of fifty plants should be presented. All must be properly certified.

D. *Zoology*—One-half or One Unit.

A one-half year course should cover the study of the classifications, general structure and the life histories of types from at least five groups of animals. As far as practicable, structure and functions should be studied together.

A notebook with careful outline drawings of the chief structures studied anatomically, general natural history, with notes on demonstrations and explanations of drawings should be submitted, properly certified.

E. *Physiology*—One-half Unit.

The emphasis should be upon the mechanism of the phenomena of life and the functions of the various organs of the human body. A notebook properly certified must be submitted, with careful outline drawings of the chief structures studied

anatomically with explanations of the drawings. No credit is given for work done before the first year of the Secondary School.

F. *Physical Geography*—One-half or One Unit.

Preparation for this should include a study of the physical forces of the earth, the simple facts and principles in mathematical geography, general facts concerning temperature and precipitation, with a study of physiographic forms, and earth sculpture. Two-fifths of the time should be spent in laboratory work. Notebooks and laboratory records must be submitted.

G. *Agriculture*—One-half Unit.

General principles of production and marketing of crops; stock breeding.

**TECHNICAL ARTS****COMMERCIAL ARTS.****A. Elementary Bookkeeping**—One-half Unit.

A good clear business handwriting. Definitions of double-entry terms, with rules for debit and credit, kinds and uses of books; conduct of a set, including the journal, cashbook, sales-book, ledger, checkbook, bank passbook and trial balance book; closing of books. Single entry set; changing from single entry to double entry.

**B. Business Law**—One-half Unit.

Legal principles governing business relations. Text book supplemented by some study of cases, discussions, and practice in drawing legal papers.

**C. Stenography and Typewriting**—One Unit.

The "touch" method is strongly recommended, accuracy and speed in taking dictation and transcribing notes. Equally essential are correct spelling, capitalization, punctuation and paragraphing.

No credit is given unless the student has a speed of seventy-five words per minute in dictation, and twenty-five words per minute on the machine. Care of machine and methods of copying, manifolding and filing papers.

No credit is given for either shorthand or typewriting, if taken separately.

**D. Commercial Geography**—One-half Unit.

The effect of the physical factor; the influence of race, religion, education and commercial politics in commerce. The effect of economic forces on production and commerce. Means of transportation and communication. Textbook supplemented by map work and assigned readings.

**E. Commercial Arithmetic**—One-half Unit.

Rapid calculation, short methods and principles.

**HOUSEHOLD ARTS.****A. Plain Sewing**—One-half Unit.

Every exercise in sewing should illustrate an important principle or process, or a simple combination of such principles and processes. Hand sewing and sewing machine work must be equally insisted upon. (a) The various stitches and their special

uses; (b) hand sewing, fundamental processes; (c) the use and care of sewing machines and their attachments; (d) the nature and special uses of cotton, linen, and woolen goods; (e) the drafting of patterns, use and cutting out; (f) taking measurements and making of simple garments.

**B. Sewing and Millinery—One-half Unit.**

Making of shirt waists, wash dresses and similar garments.

**Millinery:** Study of materials for hats; making, altering and covering hat frames. The planning, making and trimming of seasonable hats of appropriate material. Economy and good taste in dress.

**HOUSEHOLD SCIENCE.**

**A. Cooking—One-half Unit.**

Food classified and tested for food-principles. Study of heat upon foods, alone and in combination with and without water and other liquids; experiments with leavening agents, and their uses shown in actual cooking. Bread-making, the theory and practice of canning and preserving fruits, vegetables and meats. Planning, cooking and serving meats. Waiting on table.

**B. Home Management and Sanitation—One-half Unit.**

Cost of food; market price; the cost of meals. Household accounts. The family dietary; the planning, weighing and cooking of apportioned meals. Diets for infants, invalids and convalescents.

**Sanitation:** Selection of site, house-planning; heating, lighting and ventilating. Water supply; disposal of waste, furnishing and decorating; cleaning processes, including laundry work.

**DRAWING.**

**A. Drawing—One-half Unit.**

Free hand drawing of simple geometrical plane and solid figures, and simple pieces of machinery, with a fair knowledge of the rules of perspective and light and shade as applied in free hand sketching. The candidate should be able to reproduce from a flat copy with enlargement or reduction of size.

Every candidate must present at the time of admission a set of free hand drawings, 20 in number, executed during a course in a preparatory school. These drawings should display proficiency of student and must be properly certified by the teacher, and the endorsement must, in effect, be as follows:

*I certify that the accompanying drawings were actually executed by....., during the year 19....., while under systematic instruction in drawing in.....school.*

*Instructor in Drawing.*

**MUSIC.**

Credit will be given only for work done in this college or one of equal standing.

*Piano*—One-half or One Unit.

See college course of study, Music 7 and 8.

*Voice*—One-half or One Unit.

See college course of study, Music 17 and 18.

**EXPRESSION.**

Credit will be given only for work done in this college or one of equal standing.

*Reading*—One-half or One Unit.

See college course of study, Expression A and B.

**ACCREDITED SCHOOLS.**

Any credit made in an affiliated school will receive full recognition in this institution.

**AFFILIATION.**

The equipment, income and faculty qualifications of the Oklahoma College for Women meet the requirements for affiliation with the North Central Association of Colleges and Universities.

**REQUIREMENTS FOR GRADUATION.**

To obtain the recommendation of the faculty for the Bachelor's degree a student must obtain 124 hours' credit. An hour's credit represents the satisfactory completion of one hour period a week of regular classroom work for one semester. In laboratory work, drawing, some phases of technical work, two or more hours' attendance is necessary to obtain one hour's credit.

**BACHELOR OF ARTS (A. B.) AND BACHELOR OF SCIENCE (B. S.)**  
**ALL STUDENTS ARE REQUIRED TO COMPLETE THE FOLLOWING:**

## SCHEDULE.

No student will be permitted to carry more than eighteen or less than twelve hours per week except by permission of the president.

After classification in the course chosen, the applicant will arrange her program with the Committee on Schedule.

When a student's course of study has been scheduled she may not change her course except by permission of the Classification Committee. All courses must be adjusted within three weeks after the date of registration. If for any reason the student's course must be readjusted after this date a fine of one dollar will be charged.

## CREDIT.

There are two written examinations; one at the end of each semester. Students are required to attend the examinations of their classes unless their average class standing is at least A—. A student falling below D— does not receive credit in the course. A student who receives a grade of D or D+ is considered conditioned and is given a second examination. Conditions must be removed before the next semester.

Students expecting credit cannot enter for a regular course later than November 1 of the school year in which they expect credit, unless they present credentials assuring the Committee on Admission of their ability to pursue work for which they are classified. When a student wishes to withdraw from college she must see the Classification Committee in order to get a withdrawal card. Unless this form be complied with no credit will be given for any work done during the semester in which she withdraws. Students leaving at the end of the year before the day scheduled for the close of college activities, without excuse from the president, thereby forfeit credit for all work done during the second semester.

S. DEBORAH HAINES  
BERTHA L. WARD

Since seventy per cent of the money spent each year for food, shelter and clothing is spent by women, and since the health, efficiency and happiness are dependent on the house-keeper, it is imperative that they be trained to perform their duties intelligently and effectively. This our Household Economics Department endeavors to do.

### REGULATIONS GOVERNING THE CERTIFICATION OF GRADUATES.

"(1) Those receiving degrees in the Household Economics Department of the Oklahoma College for Women, whose work includes one year in Psychology and twelve credit hours in Education, will be granted a High School State Certificate in Household Economics valid for five years. The twelve credits in Education must include two hundred sixteen actual hours of practice teaching and observation, at least one-fourth of which must be practice teaching. At the expiration of this certificate upon furnishing satisfactory evidence of having taught successfully at least three years out of the five, the holder will be granted a State Life Certificate in Household Economics. If for any reason the holder of this certificate is not engaged in educational work for a period of five years or more, the certificate is thereby rendered null and void.

"(2) Graduates of the two-year course for teachers will be granted a High School State Certificate in Household Economics valid for two years. At the expiration of this certificate, the holder will be granted one other certificate of the same rank providing she has done at least one additional year's work of study in Household Economics in some standard college or university before making application for the second certificate and providing the holder has furnished satisfactory evidence of having taught successfully at least one year out of the two."

### COURSES OFFERED.

Three courses are offered in the department and are planned to fit the needs of four classes of students:

- (1) Those who desire a thorough preparation for teaching Household Economics in high school.
- (2) Those who desire a broad knowledge of Household Economics for use in the home.
- (3) Those who desire to teach Household Economics and cannot remain for the four-year course.
- (4) Those who wish to become more efficient for home service and cannot remain the four years.

To the first two classes the following course is offered:

- (1) A four-year course leading to the degree of Bachelor of Science in Household Economics.

To the third class the following course is offered:

- (2) A two-year teacher's course on the completion of which one is granted a two-year High School State certificate.

To the fourth class the following course is offered:

- (3) A two-year course leading to a home-maker's certificate.

*Prerequisite.* For any of the three courses the applicant must be a graduate of an accredited high school. One of the units offered must be Chemistry. Opportunity is allowed the applicant to take this, if she is deficient. The work for such students will be somewhat heavier than the regular course for the first year.

*Apportionment of Courses.* The work of the course is divided between the Household Science and the Household Art departments. The English, Fine Art, Language, and the allied sciences are offered in the respective departments of the college, and the descriptions of such courses will be found under the various departments. In the degree courses, the technical subjects, and academic subjects are almost equally proportioned so as to give broad training. The four-year course divides at the beginning of the senior year, giving the student a chance to specialize either in Household Science or in Household Art.

*Household Economics may be elected as a major in the Sophomore year.*

#### B. S. HOUSEHOLD ECONOMICS AS MAJOR.

Candidates for the degree of Bachelor of Science with home economics as major must offer one unit of household economics

on entrance and are required to complete the following course of studies to make 124 hours.

BERTHA L. WARD

### DESCRIPTION OF COURSES.

#### HOUSEHOLD SCIENCE 1. *Foods and Home Training.*

This course is given a working knowledge of the representative types of food with regard to composition, method of preparation, economics, nutritive and fuel value. Simple meals are served. The course endeavors to touch on a large number of the problems of the home-maker, such as buying, methods of cleaning, systematic regulation of work, care of the sick, care of babies and children, general sanitation and the obligations of the home to the community. Freshman. Required of all candidates for A. B. and B. S. degrees. Prerequisite to all other courses in household science. Recitation, two periods; laboratory, two double periods throughout the year. No credit given unless taken in connection with Household Art 1. Prerequisite: Chemistry 1 unit and Household Science and Art 1 unit.

First and second semester. Household Science and Art 1,

Credit 8 hours

#### HOUSEHOLD SCIENCE 2a. *Foods and Cookery.*

An intensive study of food preparation on a chemical basis. This course consists in experimentation in regard to composition of foods and practical application of the results obtained. Sophomore. Required of all candidates for degrees in Household Economics and of candidates for certificates in the Home-Makers' course. Prerequisite: Household Science 1, Science 1. Recitation, two periods; laboratory, three double hours.

First semester.

Credit 4 hours

#### HOUSEHOLD SCIENCE 2b. *Advanced Foods and Cookery.*

The more elaborate processes receive attention in this course. Directly preparatory to Household Science 3a. Sophomore. Prerequisite: Household Science 2a. Required of all students enrolled in the four-year course, the two-year course or the Home-Makers' course. Recitation, two periods; laboratory, 3 double periods.

Second semester.

Credit 4 hours

**HOUSEHOLD SCIENCE 3a. *Marketing and Meal Preparation.***

Marketing and planning of balanced meals from the simple to the elaborate, with the preparation and serving of them. The student is limited in the amount expended. The class is divided into small groups for the work and each girl gets practice acting as cook, waitress and hostess. Etiquette of the table is emphasized. Junior. Required of all candidates for degrees in Household Economics, and of candidates for certificates in the Home-Makers' course. Prerequisite: Household Science 2b. Recitation one period; laboratory, four double periods.

First semester.

Credit 4 hours

**HOUSEHOLD SCIENCE 3b. *Catering and Lunch Room Service.***

The practical work of this course will include the preparation and serving of refreshments for small functions, and the preparation and serving of school lunches at a minimum cost. The principles and problems involved in quantity cooking will be considered. Junior. Prerequisite: Household Science 3a. Recitation, two periods; laboratory, two double periods.

First semester. With Household Science 3d. Credit 4 hours

**HOUSEHOLD SCIENCE 3d. *Demonstrations.***

The principles involved in successful demonstration will be studied. Practice and observation work will be given in commercial and educational demonstrating. Junior. Prerequisite: Household Science 3a.

Second semester. With Household Science 3b. Credit 4 hours

**HOUSEHOLD SCIENCE 4a. *Dietetics 1.***

A study of food requirements of the body varying conditions of age, health and activity. Balanced rations are worked out according to various dietary standards. The amounts computed are weighed out and prepared as meals. The question of school lunch and infant feeding are included. Senior. Required of all candidates for degrees in Household Economics, specializing in Household Science. Prerequisite: Household Science 3b. Recitation, two periods; laboratory, three double periods.

First semester.

Credit 4 hours

**HOUSEHOLD SCIENCE 4b. *Dietetics 2.***

A continuation of Dietetics 1 with special attention to the feeding of babies and therapeutic cookery. A brief survey of

the common diseases is made to establish a connection between the nature of the disease and its dietetic treatment. Foods designed for patients with specific ailments are prepared and served. Senior. Required of all candidates for degrees in Household Economics, specializing in Household Science. Elective for Household Art B. S. candidates. Prerequisite: Household Science 4a. Recitation, two periods; laboratory, three double periods.

Second semester. Credit 4 hours

**HOUSEHOLD SCIENCE 5a. *Household Science Education.***

Organization of courses of study, planning of lessons, purchasing of equipment, planning of laboratories, and the application of psychological principles of the teaching of Household Science. Senior. Required of all Household Science students in the four-year course who expect to teach. Prerequisite: The first three years of the Household Economics course. Recitation and lecture, two periods; observation, three periods.

First semester. Credit 3 hours

**HOUSEHOLD SCIENCE 5b. *Household Science Education.***

A continuation of 5a. Practice teaching, observation, and discussions. Senior. Recitation and lecture, one hour; practice teaching and observation, three double periods.

Second semester. Credit 3 hours

(Household Science 5a and b with Household Art 5a and b include 216 actual hours of practice teaching and observation work, of which at least 48 hours must be in practice teaching.)

**HOUSEHOLD SCIENCE 5c. *Household Science Education.***

This course will deal with the same problems dealt with in Household Science 5a and b, but in a briefer way. Sophomore. Required of all students in the two-year course. Lecture and recitation, one period.

First semester. Credit 1 hour

**HOUSEHOLD ECONOMICS 6a. *Home Management.***

House sanitation, dealing with problems of water supply, heating, plumbing and lighting systems, ventilation and garbage disposal. Conveniences, economy of space, income as determining types of household, the budget and its apportionment. Application of principles of scientific management to household.

Household Economics 6d is a continuation of this course and offered in Household Art Department. Senior. Recitation and lecture, two hours.

First semester. Credit 2 hours

**HOUSEHOLD SCIENCE 6a. *History of Home Economics and Home Economics Literature.***

This deals with the development of education for women and its effect on Home Economics education. A survey is made of the authoritative material on Home Economics. Elective in the junior year. Lecture and recitation, two periods.

First semester. Credit 2 hours

**HOUSEHOLD SCIENCE 6b. *Emergencies and Home Nursing.***

This course is a study of the furnishing and care of the sick room, the giving of baths, the administration of medicine, recording of symptoms, and the intelligent use of antiseptics and disinfectants. Junior. Required of all candidates for certification in Home-Makers' course. Recitation, three periods.

Second semester. Credit 3 hours

**HOUSEHOLD SCIENCE 7a. *Advanced Cookery.***

This course applies knowledge gained in Household Science 1, 2, and 3 to elaborate dishes and gives practice to further develop skill in manipulation. Elective, senior year. Prerequisite: Household Science 1, 2 ,and 3. Recitation, one period ; laboratory, two double periods.

First semester. Credit 2 hours

**HOUSEHOLD SCIENCE 7b. *Lunch and Tearoom Service.***

The principles of cookery are applied to the preparation of foods adapted to lunch and tearoom service. A tearoom will be carried on in the dining room of the department. This course with 7a is offered as elective work, which with Household Science 3b will prove especially helpful to those expecting to use their training in commercial purposes. Elective, senior year. Prerequisites: Household Science 7a. Recitation, two periods ; laboratory, three double periods.

Second semester. Credit 4 hours

## HOUSEHOLD ART

---

ANNA K. BANKS

HAZEL FROST

This department reserves the right to keep work done in class for one year to be used for exhibit by the school. All graduates of the college are required to make their graduation dresses.

### DESCRIPTION OF COURSES.

HOUSEHOLD ART 1a and b. *Practical Sewing.*

## PSYCHOLOGY AND EDUCATION

---

### I. E. MOTT.

The purpose of the Department of Education is to give the prospective teacher such professional training as will make their teaching most effective. Students who enroll in courses in this department will do the required academic work and complete their major work in some other department of the College, while the work in Education will seek to train them in methods of teaching the major and relating subjects. In recognition of work done in this department, the State Board of Education will grant certain certificates to teach in the Public Schools of Oklahoma as follows:

**LIFE CERTIFICATE FOR GRADUATES.** The regulations of the State Board of Education provide that students who have met all the requirements for a degree and have completed the regular courses in Education and Psychology, which shall include Practice Teaching and Teacher's Courses in the major subject, shall upon the recommendation of the Department of Education be granted a Teacher's Life Certificate valid in the Public Schools of the state.

**TWO-YEAR STATE CERTIFICATE.** This certificate is granted to those who have completed at least two years of college work, which shall include regular courses in Education and Psychology. This certificate is valid in the Public Schools of the state when registered with the County Superintendent of the county in which the teaching is to be done. This certificate is also valid in any independent district when registered with the Board of Education of said Independent District.

**STATE GRAMMAR SCHOOL CERTIFICATE.** This certificate is issued to the student who after presenting fifteen units of admission credit has completed one year's work in the College and has had regular courses in Education and Psychology. This certificate is valid for one year in the Grammar Schools of the State.

**CERTIFICATE IN PUBLIC SCHOOL MUSIC.** This certificate will be granted to those who have completed the regular course in Music and courses in the Department of Education. This certificate is valid for two years.

CERTIFICATE IN HOUSEHOLD ECONOMICS. This certificate is valid for two years and is granted to those who have completed the "Two-Year Course" in House Economics which includes certain work in Psychology and Education. This certificate is renewable for an equal length of time on the basis of an additional year's work in House Economics done in some standard college or university, and evidence of at least one year's successful teaching experience.

CERTIFICATE IN EXPRESSION. This certificate is valid for two years and will be granted to those who complete the "Diploma Course" in Expression, together with specified courses in Education and Psychology.

#### DESCRIPTION OF COURSES.

First semester. Credit 4 hours

##### EDUCATION 3. *Educational Psychology.*

A study of the principles of the learning process; the fundamental instincts and capacities; the organization of experience as habit, perception, imagination, memory, association, correlation of studies, transfer of training, attention and interest, analysis, reasoning, cultivation of emotions, motor expression and motor training. Outside readings, lectures and recitations.

Second semester. Credit 4 hours

##### EDUCATION 1. *History of Education (Ancient).*

The development of Educational Theory and Practice as determined by the various social, economic, political and religious conditions in different nations from earlier times. Class discussions, assigned readings and lectures.

First semester. Credit 2 hours

**EDUCATION 2. *History of Education (Modern).***

This is a continuation of Education 1. Attention will be given to the evolution of present educational practices and beliefs.

Second semester. Credit 2 hours

**EDUCATION 4. *Elements of Method.***

This course deals with the fundamental principles of instruction, supervision and classroom management. The course is paralleled by observation and is intended for elementary and high school teachers and supervisors of special subjects. Psychology 1 and Education 3 are required for entrance to this course.

First semester. Credit 3 hours

**EDUCATION 5. *Principles of Education.***

The School is studied as a social institution with special attention to the Psychology of Adolescence. The aims, ideals and basis of effective teaching will be studied in the light of biology and psychology. Psychology 1 and Education 3 are required for entrance to this course.

Second semester. Credit 3 hours

**EDUCATION 6. *Education of Mentally Retarded.***

This course considers the grades and variety of mental deficiency, the backward child, the feeble-minded, and the exceptional child; methods of examination, tests and observation. Education 3 required for entrance.

First semester. Credit 2 hours

**EDUCATION 7. *Child Study.***

A study of the Child Mind in development. Aims and methods of Child Study, Physical and Mental development. A discussion of play and the formation of habit. Stages of childhood and adolescence. Education 3 required for entrance.

Second semester. Credit 2 hours

**EDUCATION 8. *Practice Teaching.***

This course is required of all candidates for the life certificate. The student will do actual classroom work for a semester in her major subject. Lesson plans and specific problems will be considered in group and individual conferences.

Those enrolling for this course must have completed Education 4 and two years in her major subject.

First semester. Credit 2 hours

**EDUCATION 90. Teachers' Courses.**

These courses are offered by the department in which the student is doing her major work. They consist in a study of the methods the subject together with an analytical study of texts generally used.

Second semester. Credit 2 hours

**EDUCATION 91. Teacher's Course in English.** Credit 2 hours

**EDUCATION 92. Teacher's Course in History.** Credit 2 hours

**EDUCATION 93. Teacher's Course in Domestic Science.** Credit 2 hours

**EDUCATION 94. Teacher's Course in Domestic Art.** Credit 2 hours

*A Biological Science may be elected as a major at the beginning of the Sophomore year.*

**CANDIDATES FOR DEGREE OF BACHELOR OF ARTS**

Students who elect a Biological Science as their major subject must present three units of science on entrance.

**MAJOR GROUP.***Major Group.*

Biological Science 2, 3, 4 and 5.

*Minor Group.*

Zoology is recommended as a minor, but the minor may be taken in any related subject upon advice of the major professor.

**BIOLOGICAL SCIENCE 1. *General Botany.***

Introduction to botany, including a study of the structures and life processes of plants. Also a study of representative forms of thallophytes, bryophytes and pteridophytes.

First semester.

Credit 3 hours

**BIOLOGICAL SCIENCE 1b. *General Botany.***

A general review of spermatophytes. The last part of the semester is given over principally to the study and classification of local angiosperm flora.

Second semester.

Credit 3 hours

**BIOLOGICAL SCIENCE 2a. *General Bacteriology.***

A study of the more important forms of pathogenic organisms, methods of isolation, relation of life. Recitations, laboratory and reports. Four hours per week. Elementary chemistry or general chemistry. Prerequisite.

First semester.

Credit 3 hours

**BIOLOGICAL SCIENCE 2b. *Domestic Bacteriology.***

Especial attention to yeast, molds, and bacteria of the home. Their role in household economy, health and disease. Bacteria cultures and counts. Four hours per week, recitations and laboratory.

Second semester.

Credit 3 hours

**BIOLOGICAL SCIENCE 3a. *Plant Physiology.***

Work on the physiology of the common cultivated plants,

covering such topics as absorption, transpiration, photosynthesis growth, reproduction and reaction of plants to stimuli. Prerequisite, Biological Science 1a and 1b.

First semester. Credit 3 hours

BIOLOGICAL SCIENCE 3b. *Local Flora.*

A study of the life histories and classification of local flora. Field work an important feature. Prerequisite, Biological Science 1a and 1b.

First semester. Credit 3 hours

BIOLOGICAL SCIENCE 4a. *Plant Ecology.*

The relation of plants to their environment, including a discussion of the origin, development, structure and successions of plant formations.

First semester. Credit 3 hours

BIOLOGICAL SCIENCE 5. *Histology.*

A study of the methods used in the collection and preservation of class material in bulk also the principles and methods used in fixing, embedding, sectioning, staining and mounting. Given in alternate years.

First semester. Credit 3 hours

BIOLOGICAL SCIENCE 6a. *General Zoology.*

A general survey of zoological science. Laboratory work consists of the study of selected invertebrate types.

First semester. Credit 3 hours

BIOLOGICAL SCIENCE 6b. *General Zoology.*

An elementary study of the vertebrates from standpoint of structure, physiology, life history and biological relations. Laboratory work consists of study of fish, frog and mammal.

Second semester. Credit 3 hours

BIOLOGICAL SCIENCE 7a. *Elementary Animal Ecology.*

A study of the local animal life based on lectures, assigned readings, field trips and laboratory work. For those who wish to become acquainted with the local fauna.

First semester. Credit 3 hours

BIOLOGICAL SCIENCE 7b. *Vertebrate Zoology.*

Advanced study of vertebrates. Lectures, recitations and laboratory work.

Second semester. Credit 3 hours

PREPARATORY  
SCHOOL

### ADMISSION.

Registration is required on the appointed days at the beginning of each term.

All candidates for admission to the first year of the Preparatory School must be at least twelve years of age and give evidence of possessing good health and good moral character. They must have completed the eighth grade or the equivalent.

Candidates must present their report card for the eighth grade or their eighth grade diploma before they will be enrolled. Those who cannot comply with this regulation will be required to take the entrance examinations on September 19 in room 205.

Admission to the second, third or fourth year is by certificate or examination. Applicants for admission to an advanced class must submit a full authenticated statement of high school subjects which have been completed and in which credit is desired. This statement must be mailed direct from the principal or superintendent of the school where these subjects were completed to the college office. Special blanks for this information will be sent on request.

If any applicant is conditioned in a subject of a lower year than that to which she is admitted, that condition must be removed during the first year of attendance.

No student will be admitted as a candidate for a diploma or certificate after October 15th of the graduation year. The Senior year must be taken in residence. Students who enter later than November 1st cannot be given credit for the term unless they present credentials showing that they have completed the first six weeks of the term in an institution of equal standing or can give evidence of ability to pursue the work satisfactorily.

### CLASSIFICATION.

#### REGULAR STUDENTS.

After the credentials of admission have been presented and accepted the student will be assisted in selecting her course of study.

The course of instruction offered is designed to give the student the common essentials of education and to allow a sufficient amount of election to meet individual needs.

The course is planned in terms of units. "A unit represents a year's study in any subject, constituting approximately a quarter of a full year's work." Sixteen units are required for

graduation. Ten units are required, the remaining six units are elective.

(For the specific subjects required and general plan by years see page 111.)

If a student wishes to prepare for college entrance she must be certain that she elects the subjects required for entrance. (For college entrance requirements see page 25.) In order to avoid an error in election the college preparatory courses have been worked out and may be found in the "Suggestive Courses" on page 112.

Suggestive courses have also been worked out for those students desiring to emphasize Home Economics or Commercial work. (See page 113). These courses are only suggestive, since the student can work out any plan of election she may desire according to the general scheme on page 111.

No student will be permitted to carry more than four and one-fourth ( $4\frac{1}{4}$ ) units or less than three (3) units except by special permission.

A certificate will be given students in Commercial Science who have completed the outlined course of two years. (See page 56.)

#### IRREGULAR STUDENTS.

Students who do not wish to pursue a regular course as candidates for a diploma or a certificate may enter as irregular students provided that they are sixteen years old. They will not be allowed to elect more than four and one-fourth ( $4\frac{1}{4}$ ) units or less than three (3) units except by special permission. They must elect two (2) units from the following: English, Science, History, Mathematics, German, French, Spanish, Latin. They cannot elect more than one of the following subjects: Piano, Voice, Expression, Art.

#### DAILY PROGRAM.

After a definite course has been decided upon and has been approved by the Classification Committee, the student will arrange her daily program under the supervision of the Committee on Schedules.

When a student's course has been scheduled she may not change her course except by permission of the Classification Committee. All courses must be adjusted within three weeks after the date of registration. If for any reason the student's

course must be adjusted after this date a fine of \$1.00 will be charged.

#### CREDIT.

Our system of grading is as follows:

A is 95; A+ 95 to 100; A— 90 to 95.  
B is 85; B+ 85 to 90; B— 80 to 85.  
C is 75; C+ 75 to 80; C— 70 to 75.  
D is 65; D+ 65 to 70; D— 65 to 0.

A student who falls below D— does not receive credit in the course. If a grade of D or D plus is received the student is considered conditioned in that course and is entitled to a second examination. Conditions must be removed before the next semester.

If at any time the student shows inability to do the work of any class to which she has been admitted she is assigned to a lower class and the credit already received in the lower class is cancelled.

Students who enter later than November 1st cannot be given credit for the term unless they present credentials showing that they have completed the first six weeks of the term in an institution of equal standing or can give evidence of ability to pursue the work satisfactorily.

When a student wishes to withdraw from school she must see the Classification Committee in order to get a withdrawal card. Unless this form be complied with no credit will be given for any work done during the semester in which she withdraws. Students leaving at the end of the year before the day scheduled for the close of college activities, without a special permit, thereby forfeit credit for all work done during the semester.
